*An Expression
... painted
by a mood
when all
around are
friends and
one can be
himself. When
a smile can
encourage and
a laugh is
contagious.*

*Sadness
and Joy
outlets of
being,
riddles and
puzzles
yet common
to all.*

*Living life one day at a time
And being aware of each day's
pleasures — that is the
secret of happiness.*

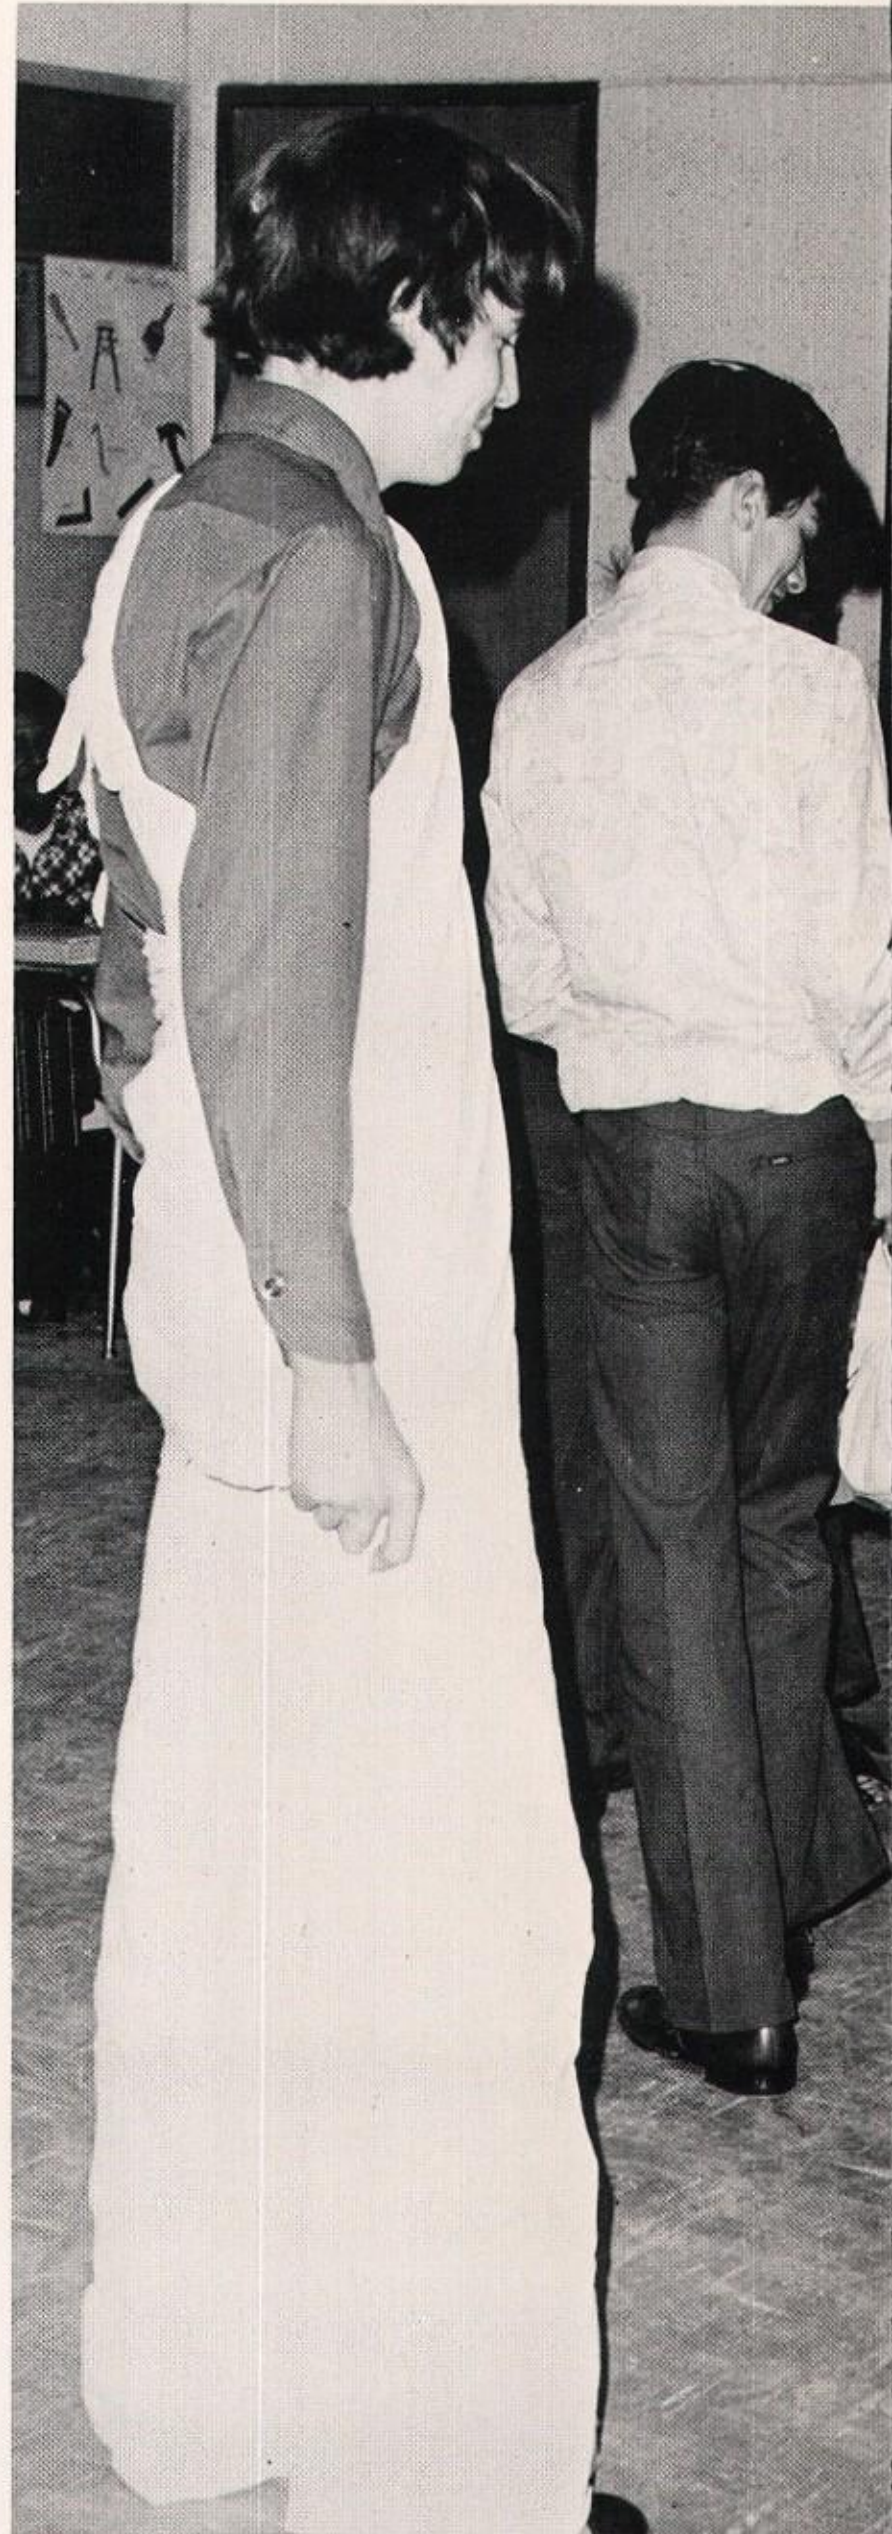

*Nourished by understanding
Warmed by friends . . .*

*Fed by loved ones
Matured by wisdom
Tempered by tears.*

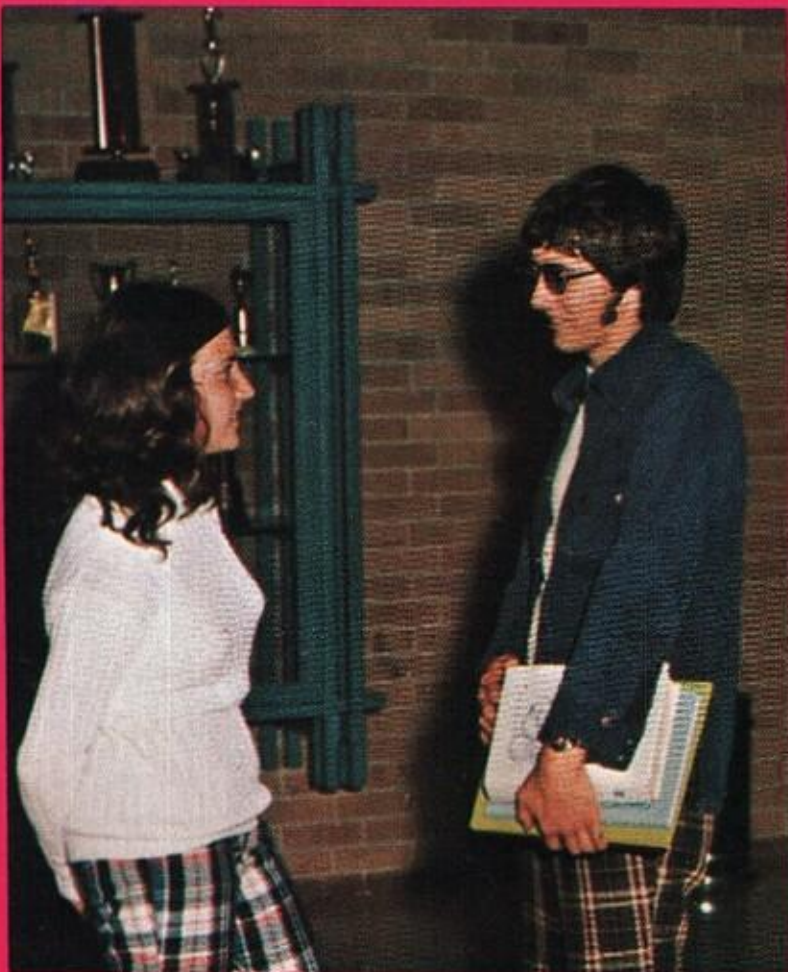

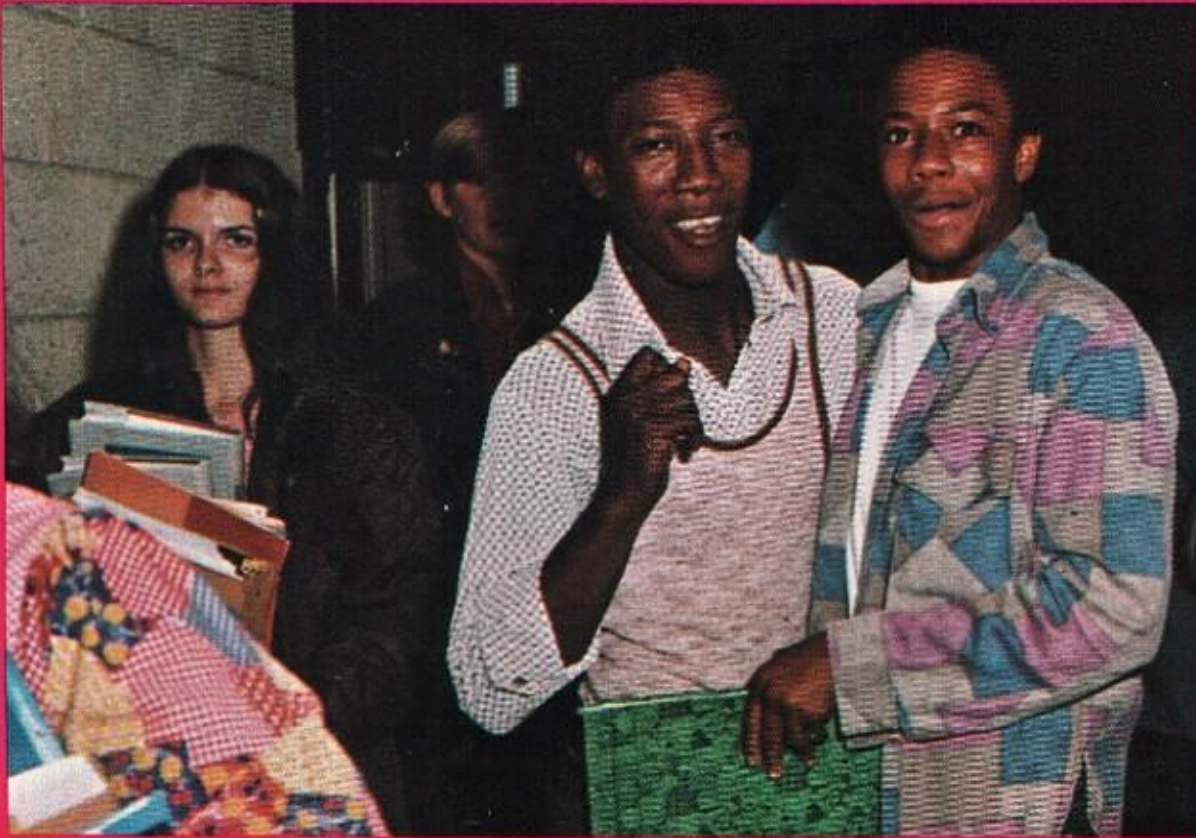

*For come days happy
or come days sad
We count no hours
but the ones made glad.*

Joy

and

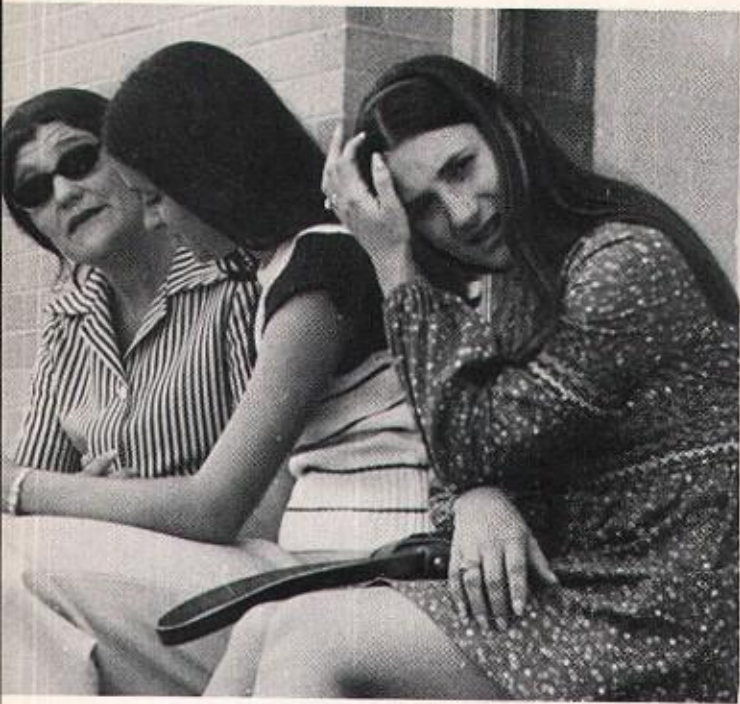

Sorrow

Joy and Sorrow are found in simple things -
a sparkling laugh . . . a refreshing tear . . .
an understanding smile . . . a togetherness of friends . . .
a complicated thought . . .
a smile to give and a grief to bear
with a friend or two.

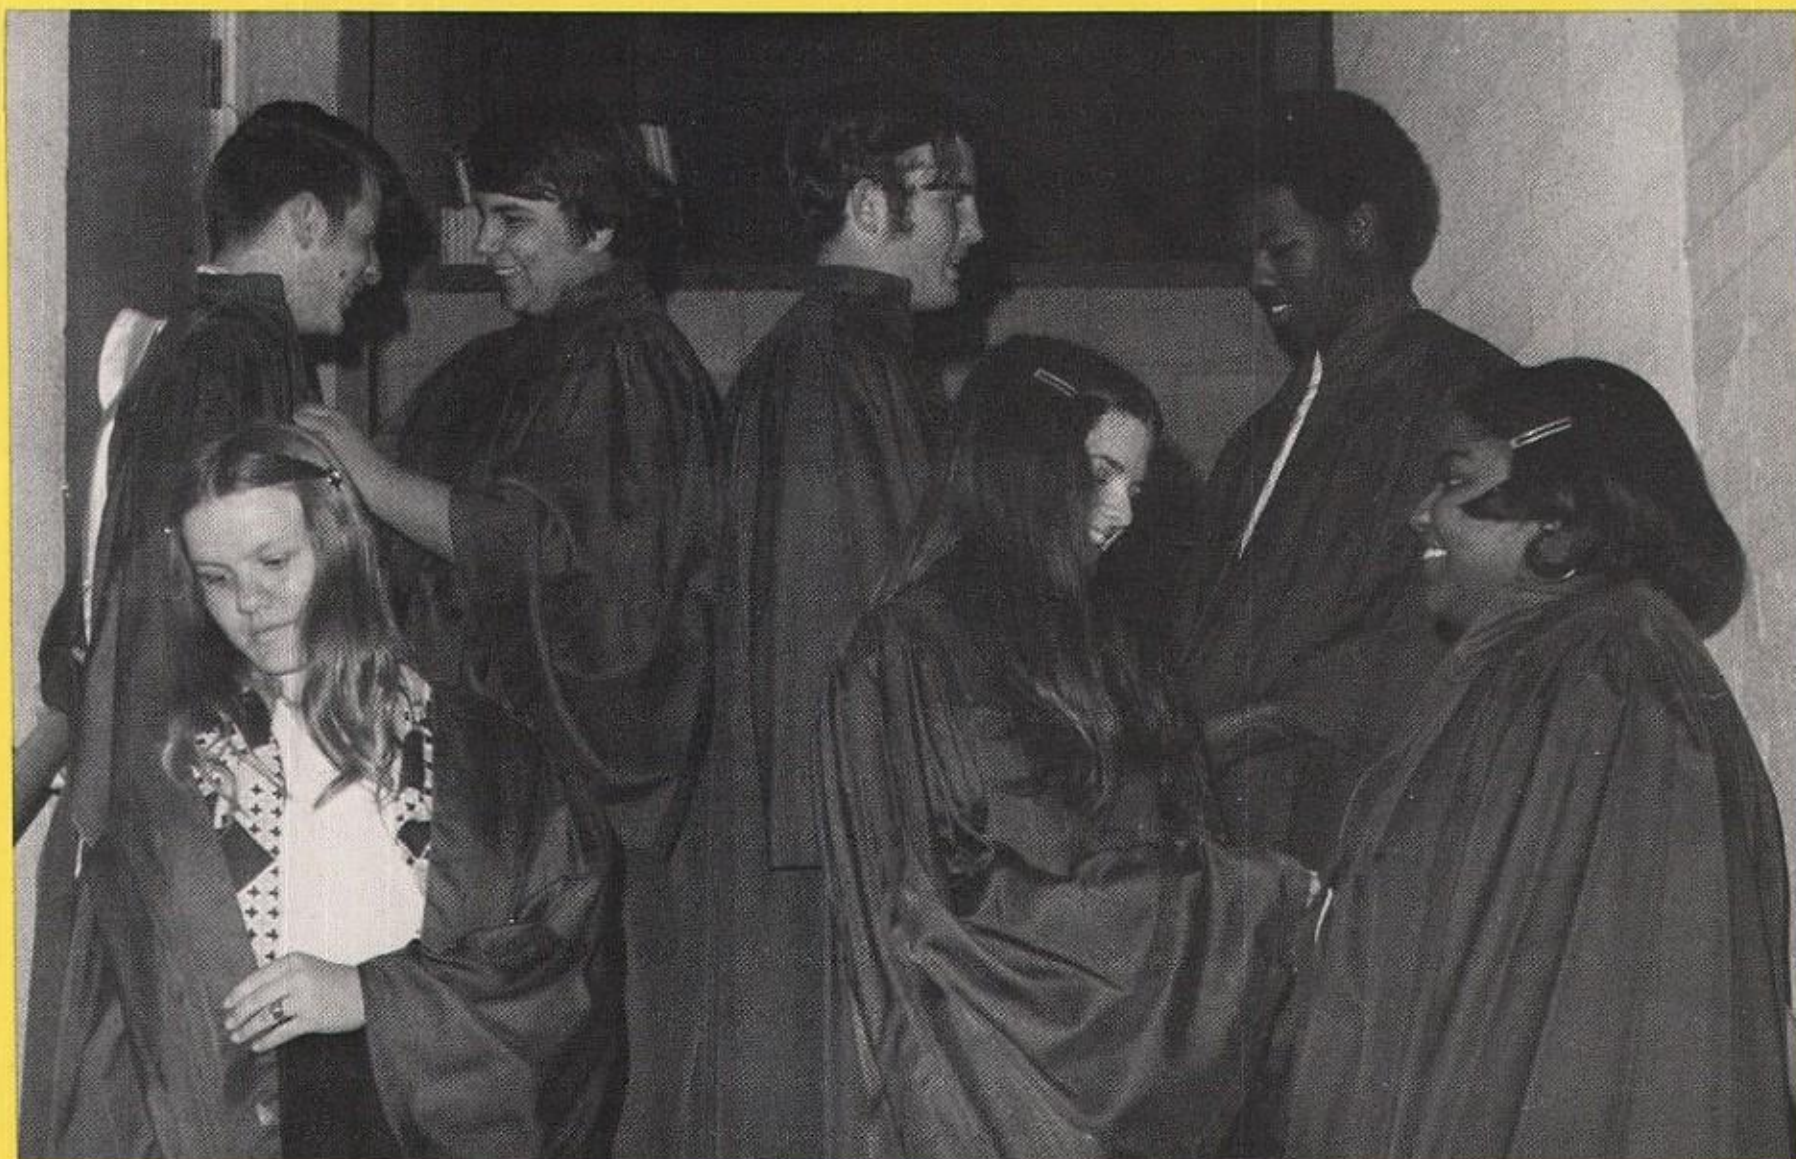

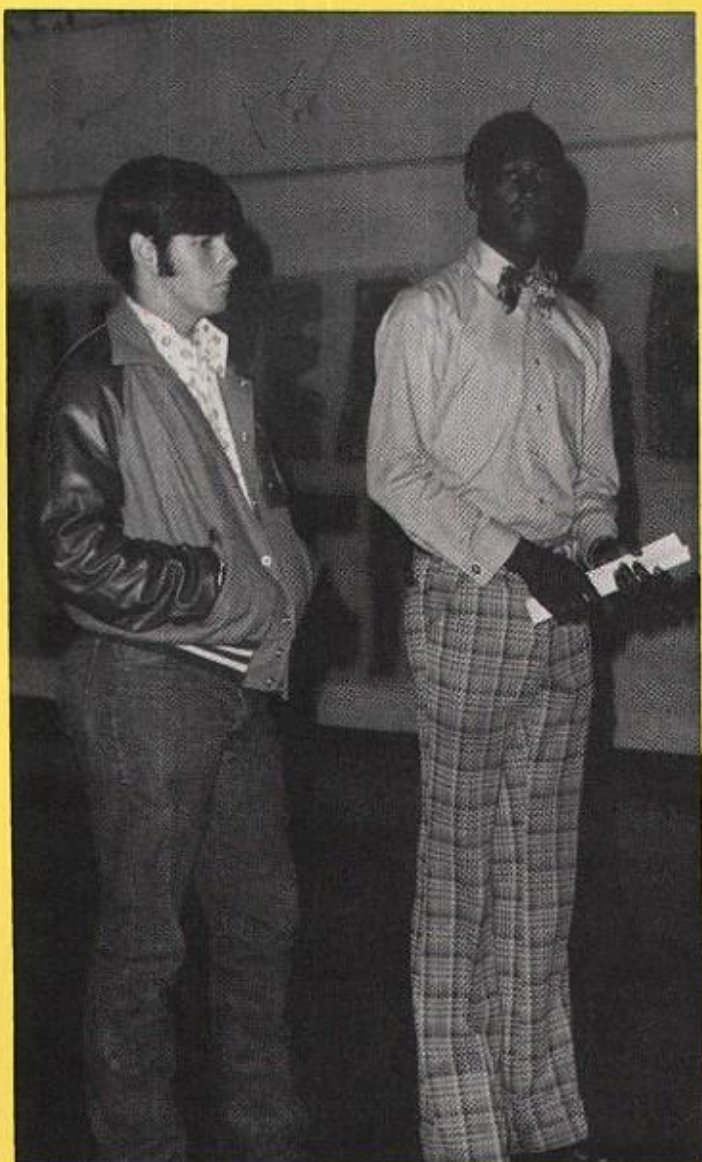

Laughter . . . is a smile making noise.

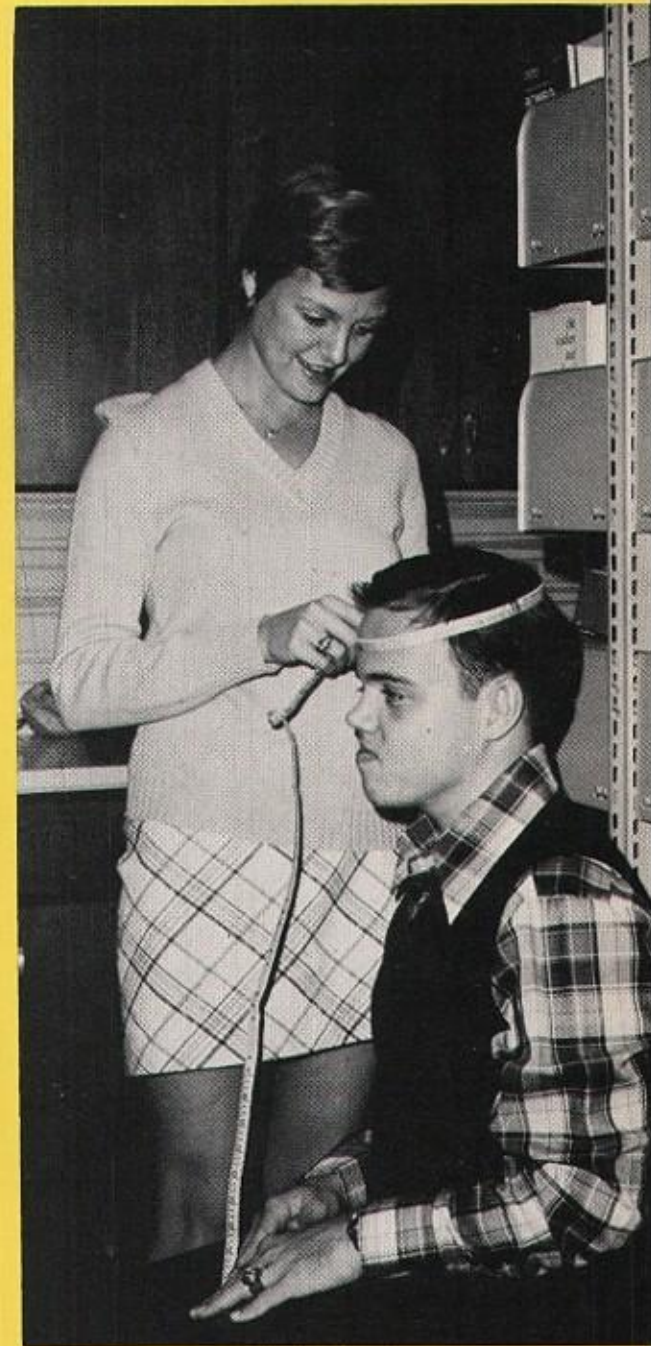

*. . . the sudden
moments in the
range of school
experiences
that reveals the
feeling,
relates the
emotion
without the use
of words . . .*

Once upon a time we lived with hearts
that raced and minds that dreamed and
clocks that had no hour hands.

With common goals and common longings, we laughed we loved, we played, we won. Those were our school days, our happy days. They were real because we made them real. They were alive because we existed.

And then, as suddenly as they had dawned, they faded into the less carefree days of adulthood. And finally they are now gone . . . those happy days in school.

Around the corner are the unknown days of tomorrow. Who knows the future that they will bring.

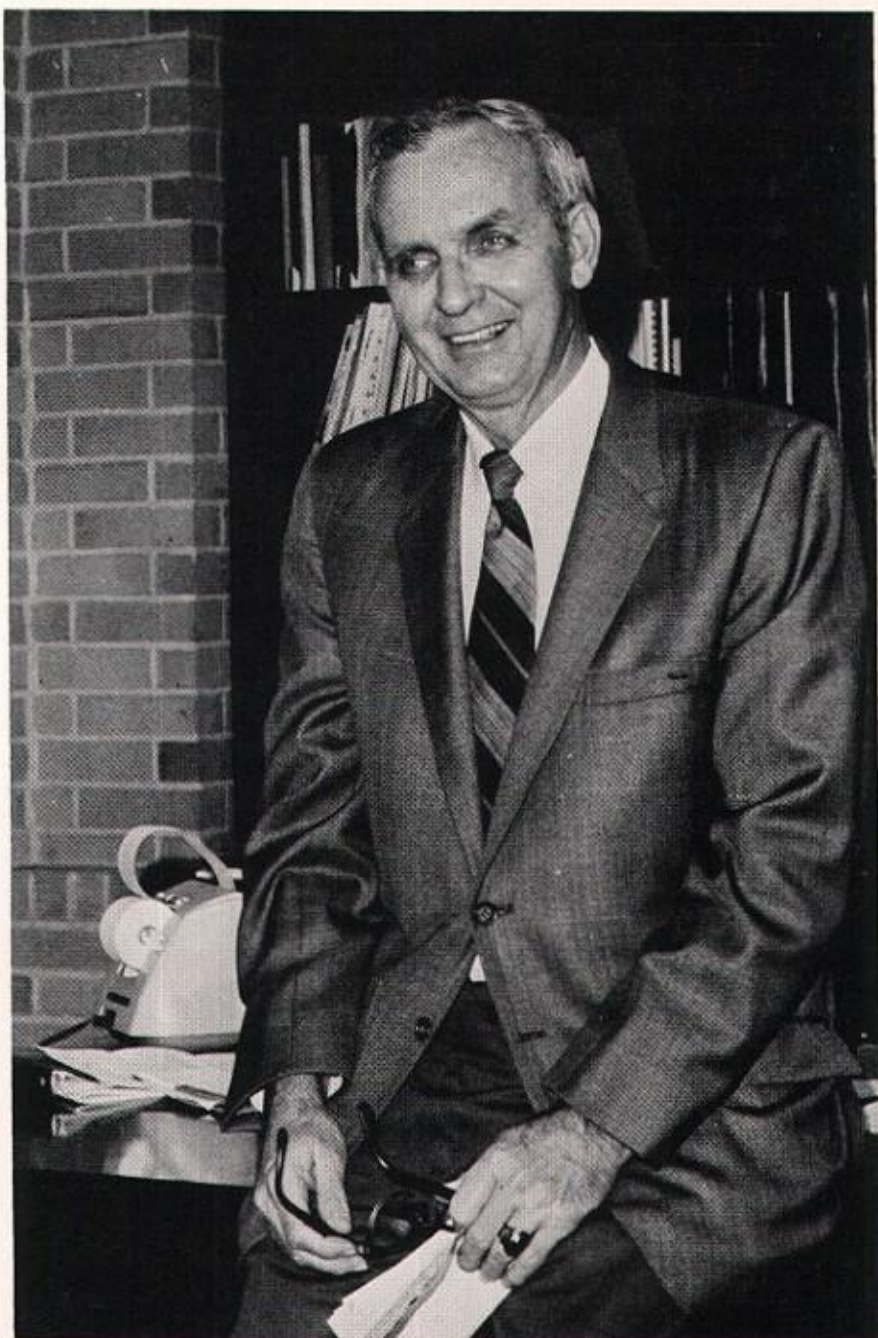

Joy is . . . being able to laugh with

a teacher.

*Administration,
Faculty,
and
Curriculum*

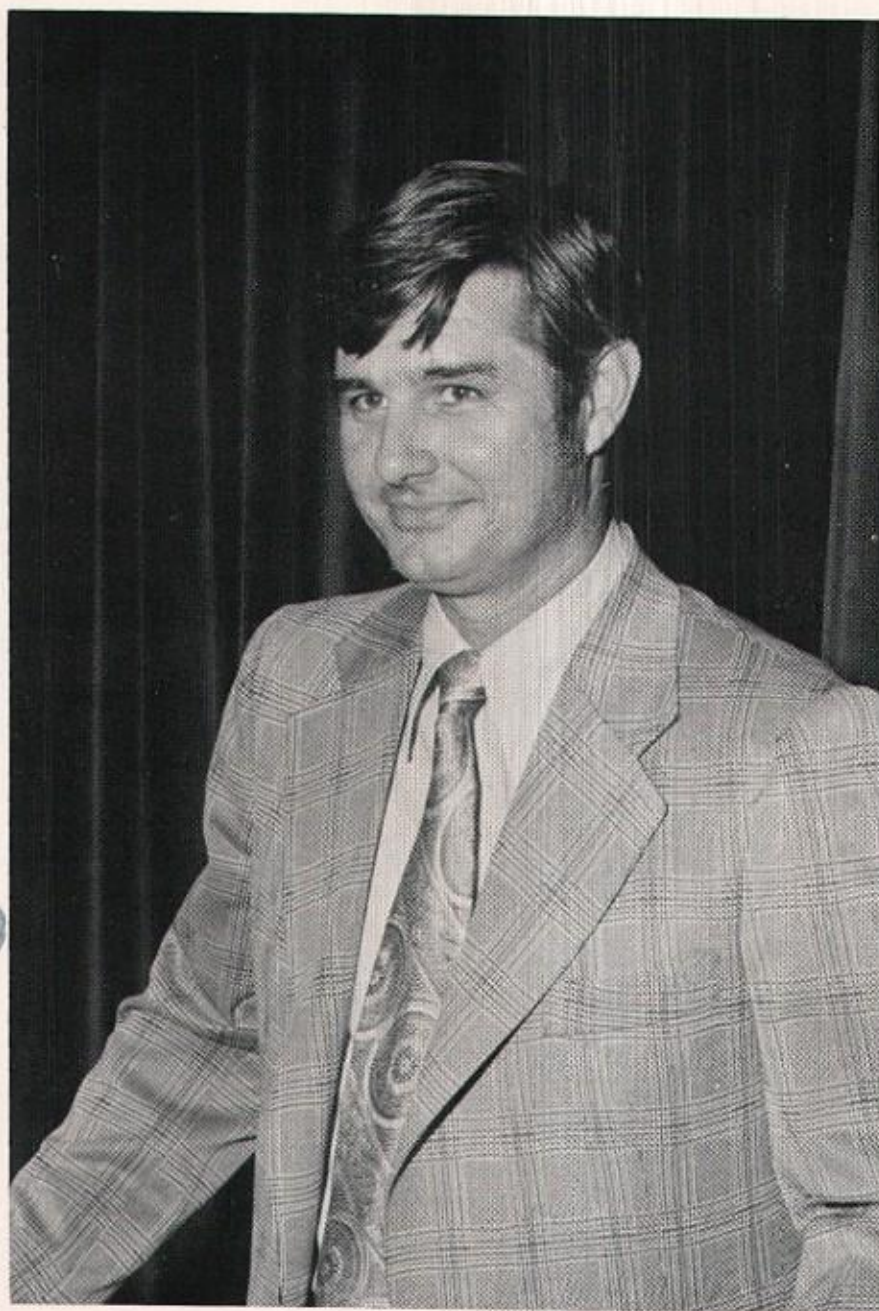

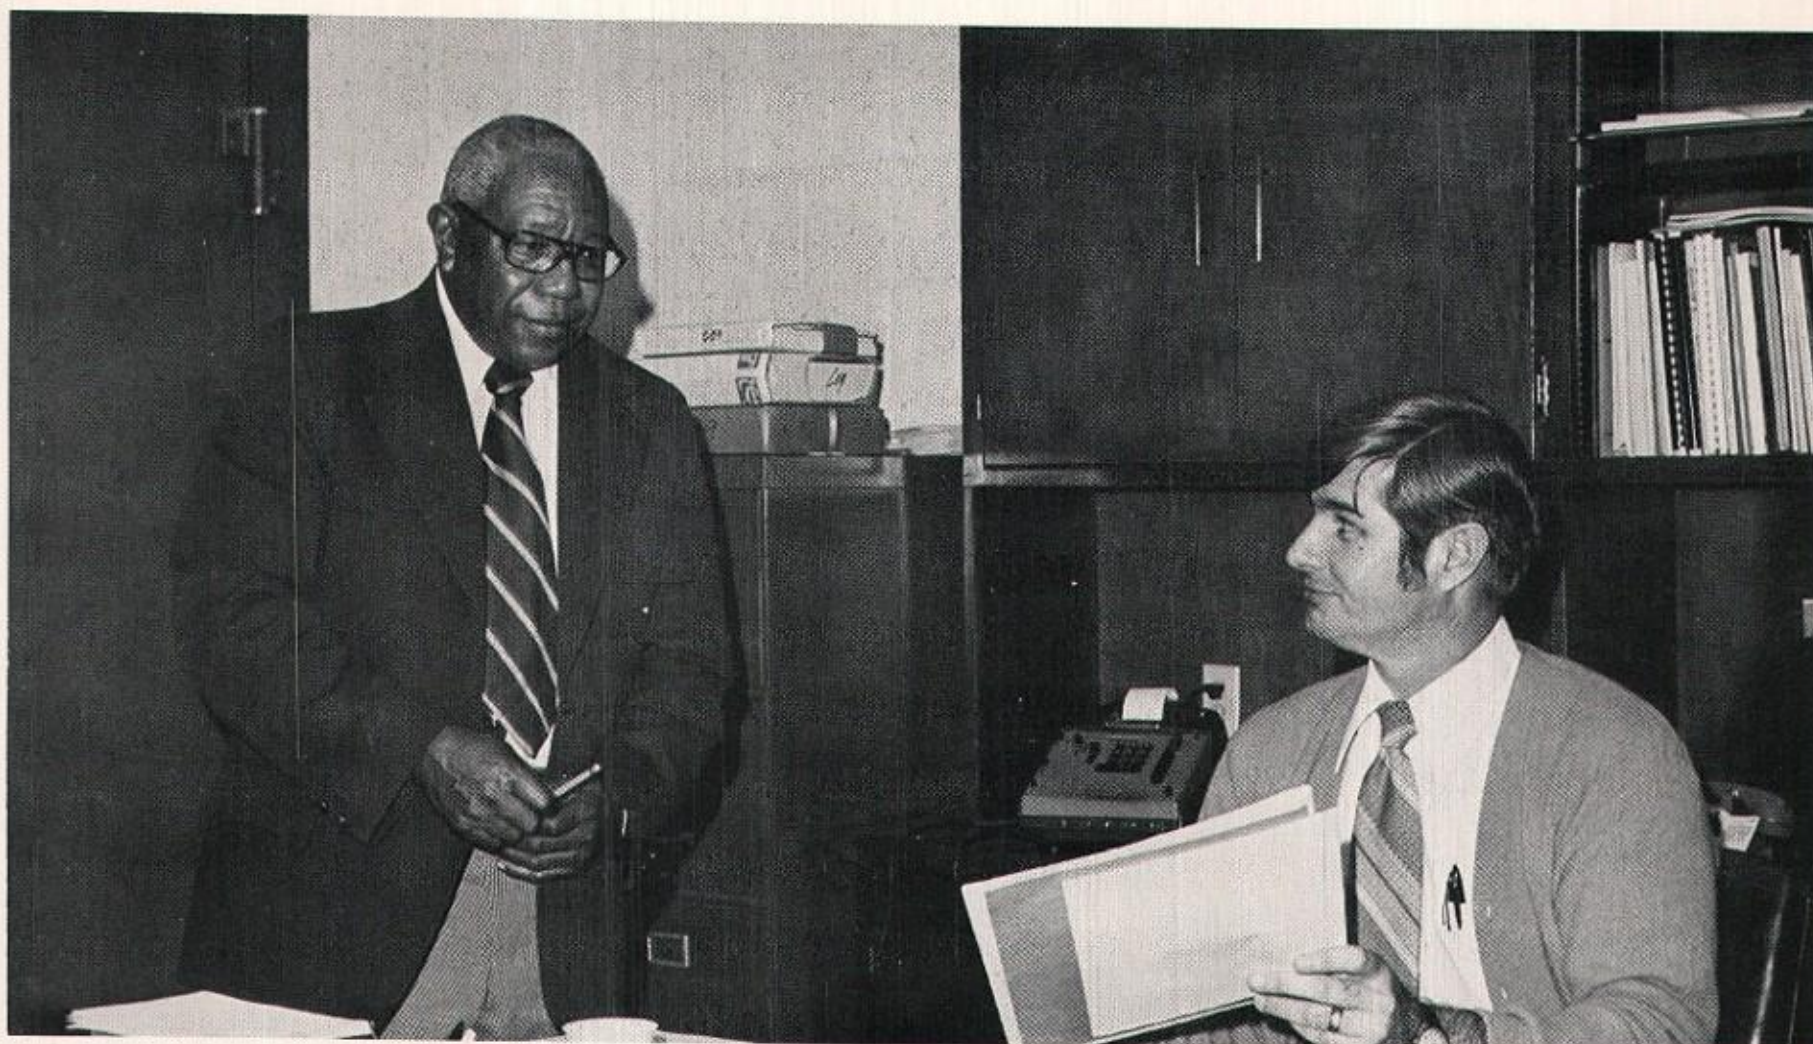

*Sorrow is . . .
taking a
trip to
Mr. Scott's
office.*

Science Gives Students a New Outlook on Life

"Look, nothing happened!"

RANDY MARTIN

KELTON KUPPER

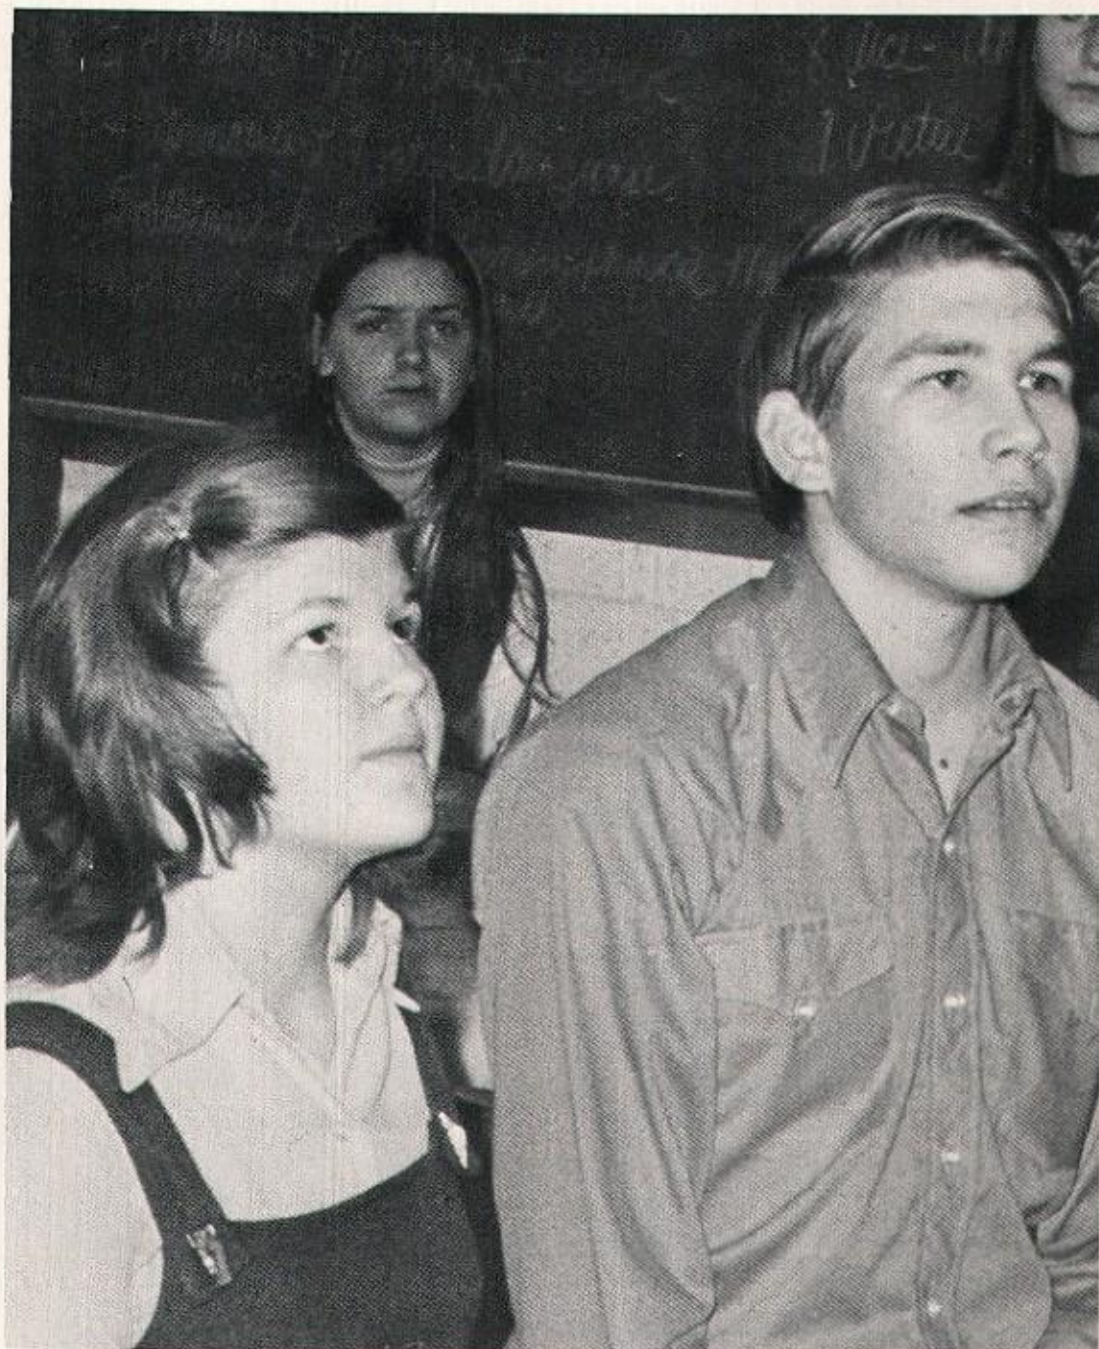

Students listen to learn the essence of life.

Students sometimes concentrate on other subjects besides science.

MRS. BEVA BYRD

Students observe experiments closely.

Science gives the students an understanding of the basis and composition of all life, as well as, an understanding of the composition of all molecular substances. The advanced sciences, such as physics, provide the students with a mathematical approach to scientific phenomena. The science faculty of M.H.S. includes: MRS. BEVA BYRD - Biology, KELTON KUPPER - Physical Science, and RANDY MARTIN - Physical Science, Chemistry, and Physics.

The Mustangs swept a first place victory in District 21-AA competition. Kenny Bounds won Medalist-First Place and Marq Synwolt won Runner-Up-Second Place. With Kenny's and Marq's scores the Mustangs won first place with 44 strokes to spare! Due to bad weather and bogies the Mustangs lost a heartbreaker at Regional by only one stroke. The one stroke kept them from going to state competition.
